The Tailwind Contrails Pre-Purchase Program is an ideal way to secure discounted pricing and guaranteed availability on private charter in the Tailwind operated fleet.

Structured similar to hourly card programs, but not limiting you on what airframe you choose to fly, the contrails program allows you to have steep discounts on your flying, with value that never expires. Additionally, rates of all airframes are locked in at the purchase time of your card, and are valid until the card value has fully exhausted.

OTHER BENEFITS

In addition to private charter discounts, Contrails members have first access to empty leg opportunities, and substantial discounts on our scheduled seaplane shuttle flights from New York City.
